Cal/OSHA COVID-19 Safety Program (CSP)
Documentation
COVID-19 Prevention and Response
Health and Safety Protocols

Overview

On March 16, 2020 site-based classroom instruction was suspended by order of the Marin County Public Health Officer in all Public and Private Schools in Marin County to help mitigate the spread of COVID-19 in the local community. All schools were forced to develop remote instruction for students, including all schools in the Mill Valley School District. Under the guidance of the Marin County Public Health Officer, Marin County School Guidelines (30 Point Plan) and School Site Specific Protection Plans (SSSPPs) have been developed for all Mill Valley Schools, Programs and offices. These SSSPP’s meet all requirements of and serve as the Cal/OSHA COVID Prevention Plan (CPP), and along with the COVID-19 School Guidance Checklist serve as the Terra Marin School COVID-19 Safety Plan (CSP) for In-person Instruction. All District SSSPPs are consolidated and posted on the Mill Valley School District Website, and individual SSSPP’s for schools sites are posted on the school web sites and made available to staff, students and families as required.

A copy of this entire document will be posted on the Mill Valley School District Homepage as required, and will also be included in the updated Terra Marin School Injury Illness & Prevention Program as Appendix C

Table of Contents

- Marin County School Guidelines – 30 Point Plan
  - NOTE: this is available on the MCOE webpage (LINK)
- COVID-19 School Guidance Checklist
  - NOTE: this item was included as an email attachment (LINK)
- All Terra Marin School School Site Specific Protection Plans (SSSPP’s) – Combined
  - NOTE: This is the plan you have already submitted to Marin County Health Department (All SSSPP’s are available at this LINK)
- Terra Marin School MOU with Teachers
  - NOTE: This is your fully executed MOU if applicable. Private and Parochial schools are recommended to include some documentation of labor consultation.
- Terra Marin School MOU with Classified Staff
  - NOTE: This is your fully executed MOU if applicable. Private and Parochial schools are recommended to include some documentation of labor consultation.

When complete, this must be posted on your District and LEA website on the home page by February 1, 2021. Posting it on the school webpage is recommended.
Marin County School Guidelines
A Public Health Guided Return
to Site-Based Classroom Instruction

Dr. Matt Willis, Marin County Public Health Officer and
Mary Jane Burke, Marin County Superintendent of Schools

Issued June 18, 2020 / Revised August 12, 2020 (#6, #7, #9 & #19)
Revised December 8, 2020 (#8, #19 & #24)

The purpose of this document is to provide guidelines to Marin County educational institutions — including public, private, independent and parochial TK-12 schools—to facilitate and return to site-based classroom instruction for the Fall 2020-2021 school year. The evolving nature of the COVID-19 pandemic requires the need to rethink common protocols and practices in the classroom setting with the understanding that these guidelines could change as the situation evolves.

1. All activities are consistent with and will adjust to changing applicable state and local Public Health orders.

2. Health and safety practices and protocols are in place, including hand washing, appropriate face coverings, access to essential protective equipment, and up to date student and staff attendance tracking.

3. Training is provided to all staff, students and families reinforcing the importance of health and safety practices and protocols.

4. A primary and secondary point of contact are established, identified and trained at each school site to direct questions or concerns around practices, protocols, or potential exposure. These points of contact will serve as liaisons to Public Health, and contact information is identified in the School Site-Specific Protection Plan.

5. Plans are implemented for intensified cleaning and disinfecting, including training for all staff and access to cleaning supplies and essential protective equipment, and regular disinfecting of frequently touched surfaces.

6. Health screening for students and staff are conducted as advised and updated by Public Health. On July 23, 2020 the Centers for Disease Control and Prevention (D) provided updated guidance on screening K-12 students emphasizing that parents and caregivers must monitor their children for signs of infectious illness every day at home, and universal symptom screening for K-12 students is not required. Staff should conduct daily health screening self-assessment, which may be completed through an online survey. (Sample MCOE Staff Daily Health Screening)
7. Staff and students who are sick are expected to stay home, and an isolation area is identified for students who begin to exhibit symptoms during the school day, until they can be picked up.

8. Schools and districts will cooperate with Public Health to support testing strategies to mitigate transmission of COVID-19, including testing of staff who have regular daily contact with students before site-based classroom instruction is resumed, and then no less than once every month. This may include testing of students with appropriate parental permissions obtained in advance.

9. Protocols, actions and template communications are in place for the following COVID-19 related scenarios (link: Marin County Public Health Exposure Protocols & Communication Templates Purple Tier/Stay Home Order ~ Red Tier ~ Orange Tier)
   a. A student or staff member either exhibits COVID-19 symptoms or has a temperature of 100.4 or above.
   b. A family member or someone in close contact with a student or staff member tests positive for COVID-19.
   c. A student or staff member tests positive for COVID-19.
   d. A student or staff member tests negative for COVID-19 after symptoms or confirmed close contact.

10. Where practicable, physical distancing of six feet is maintained between adults and between adults and students; four feet distance is permissible between students within a classroom or instructional area where requirements herein are in practice.

11. For elementary schools, stable classroom cohorts (up to standard class size at each respective grade level) are maintained throughout each school day, and through each quarter or semester, with an assigned primary cohort teacher, and systems are in place to prevent the mixing of classroom cohorts.

12. For middle and high schools, larger cohorts made up of students from more than one classroom may be arranged as long as accurate attendance data for students and adults is maintained on a daily basis while avoiding school wide mixing of students and staff.

13. Where practicable, desks are arranged facing forward to minimize face to face proximity between students.

14. School staff are permitted to visit and instruct more than one classroom cohort, following physical distancing and face covering protocols, and must document/record visits to classrooms that are not identified as their primary classroom cohort.

15. Routes for entry and exit to the campus will be designated for each classroom cohort, using as many entrances/exits as feasible.
16. Schedules for arrivals, recess and lunch will be strategically coordinated to prevent mixing of classroom cohorts.

17. Congregate movement through hallways will be minimized as much as practicable.

18. Large gatherings (i.e., school assemblies) are currently prohibited.

19. The use of outdoor space for instructional purposes is maximized, shared, and coordinated to ensure students remain in their cohort. Schools should assess indoor air quality and implement strategies that increase the amount of outdoor air brought into buildings, optimize current HVAC systems and supplement with portable air cleaners when practicable. Keep windows and other sources of natural ventilation open to the greatest extent possible.

20. Use of shared playground equipment will be limited in favor of physical activities that require less contact with surfaces, and shared equipment will be cleaned between uses.

21. Use of non-classroom space for instruction such as gymnasiums and multi-use rooms should be considered to support physical distancing with cleaning between uses.

22. Meals will be served outside as much as possible or in classrooms instead of cafeterias or dining rooms with individually plated or bagged meals as much as practicable.

23. Routines and schedules will be developed to enable students and staff to regularly wash their hands at staggered intervals.

24. All staff as well as all students are required to wear face coverings while in the classroom and on campus, unless there is a medical or behavioral contraindication or exemption. Students from grades TK - 2 should be supported and taught how to wear them properly, and specific outdoor and appropriately distanced activities may be scheduled for students at all grade levels to remove face coverings for brief periods of time.

25. Training will be provided for staff and students on proper use of face coverings which will include instruction to minimize touching of face coverings.

26. Sharing of supplies, manipulatives, toys, sports equipment, and other learning and recreational materials will be limited and each student will have separate individually labeled boxes or cubbies.

27. Sharing of electronic devices, clothing, books and other games or learning aids will be avoided as much as practicable.

28. Use of privacy boards or clear screens will be considered as much as practicable.
29. Non-essential visitors, including parent volunteers will be limited and essential workers will be required to adhere to all health and safety guidelines.

30. A School Site-Specific Protection Plan** outlining the above measures is completed, posted on school or district website and shared with all staff and families and will be updated as state and local Public Health guidance dictates.  
**Please submit to SSSPP@marinschools.org. Completed plans will be forwarded to Public Health for review.

*8.12.2020 Note: Based on updated guidance from the California Department of Public Health (CDPH), Governor Newsom, and Marin County Public Health, site-based classroom instruction cannot resume until a waiver is granted by Public Health, which, if granted would apply to grades TK-6 only, or Marin County has been off of the state monitoring list for 14 days. During this time, teachers / staff may meet small cohorts of students (15 or fewer) onsite to onboard students to virtual learning and provide safety instruction to prepare for return to school (e.g., meet their teacher, obtain learning materials, receive hygiene instruction), and/or to participate in academic and emotional assessments. Students and staff must adhere to face covering, and physical distancing requirements described in these guidelines. While Marin remains on the CDPH county watch list, 6th grade students in schools who are granted waivers will be considered elementary school students during the waiver period.

12.8.2020 Note: If applicable and helpful, schools may update SSSPP’s to reflect changes in guidelines #8, #19 and #24 and additional detail on implementation. Previously approved SSSPP’s do not need to be re-submitted after making these revisions.

COVID-19 School Guidance Checklist

January 14, 2021
2021 COVID-19 School Guidance Checklist

Name of Local Educational Agency or Equivalent: Terra Marin School

Number of schools: 1
Enrollment: 95

Superintendent (or equivalent) Name: Wendy Xa
Phone Number: 415-906-2220
Email: wendy@terramarin.org

Address: 70 Lomita Drive
Mill Valley, Ca 94941

Date of proposed reopening: 09/08/2020

County: Marin

Current Tier: Purple
(please indicate Purple, Red, Orange or Yellow)

Type of LEA: Private School

Grade Level (check all that apply)
- TK
- 2nd
- 5th
- 8th
- 11th
- K
- 3rd
- 6th
- 9th
- 12th
- 1st
- 4th
- 7th
- 10th

This form and any applicable attachments should be posted publicly on the website of the local educational agency (or equivalent) prior to reopening or if an LEA or equivalent has already opened for in-person instruction. For those in the Purple Tier, materials must additionally be submitted to your local health officer (LHO), local County Office of Education, and the State School Safety Team prior to reopening.

The email address for submission to the State School Safety for All Team for LEAs in Purple Tier is:
K12csp@cdph.ca.gov

LEAs or equivalent in Counties with a case rate >=25/100,000 individuals can submit materials but cannot re-open a school until the county is below 25 cases per 100,000 (adjusted rate) for 5 consecutive days.

For Local Educational Agencies (LEAs or equivalent) in ALL TIERS:
- I, Aidan Gavet, post to the website of the local educational agency (or equivalent) the COVID Safety Plan, which consists of two elements: the COVID-19 Prevention Program (CPP), pursuant to CalOSHA requirements, and this CDPH COVID-19 Guidance Checklist and accompanying documents,
which satisfies requirements for the safe reopening of schools per CDPH Guidance on Schools. For those seeking to open while in the Purple Tier, these plans have also been submitted to the local health officer (LHO) and the State School Safety Team.

I confirm that reopening plan(s) address the following, consistent with guidance from the California Department of Public Health and the local health department:

- **Stable group structures (where applicable):** How students and staff will be kept in stable groups with fixed membership that stay together for all activities (e.g., instruction, lunch, recess) and minimize/avoid contact with other groups or individuals who are not part of the stable group.

Please provide specific information regarding:

- How many students and staff will be in each planned stable, group structure? (If planning more than one type of group, what is the minimum and maximum number of students and staff in the groups?)
  
  Varies by classroom, up to standard class size (following Safety Plan)

If you have departmentalized classes, how will you organize staff and students in stable groups?

  Following Public Health Guidelines and safety plans (record keeping)

If you have electives, how will you prevent or minimize in-person contact for members of different stable groups?

  Physical distancing, scheduled movements, following safety plans.

- **Entrance, Egress, and Movement Within the School:** How movement of students, staff, and parents will be managed to avoid close contact and/or mixing of cohorts.

- **Face Coverings and Other Essential Protective Gear:** How CDPH’s face covering requirements will be satisfied and enforced for staff and students.

- **Health Screenings for Students and Staff:** How students and staff will be screened for symptoms of COVID-19 and how ill students or staff will be separated from others and sent home immediately.

- **Healthy Hygiene Practices:** The availability of handwashing stations and hand sanitizer, and how their safe and appropriate use will be promoted and incorporated into routines for staff and students.
Identification and Tracing of Contacts: Actions that staff will take when there is a confirmed case. Confirm that the school(s) have designated staff persons to support contact tracing, such as creation and submission of lists of exposed students and staff to the local health department and notification of exposed persons. Each school must designate a person for the local health department to contact about COVID-19.

Physical Distancing: How space and routines will be arranged to allow for physical distancing of students and staff.

Please provide the planned maximum and minimum distance between students in classrooms.

Maximum: 6+ ____________ feet

Minimum: 4 ____________ feet. If this is less than 6 feet, please explain why it is not possible to maintain a minimum of at least 6 feet.

Following public health guidelines and safety plans. (See SSPP)

Staff Training and Family Education: How staff will be trained and families will be educated on the application and enforcement of the plan.

Testing of Staff: How school officials will ensure that students and staff who have symptoms of COVID-19 or have been exposed to someone with COVID-19 will be rapidly tested and what instructions they will be given while waiting for test results. Below, please describe any planned periodic asymptomatic staff testing cadence.

Staff asymptomatic testing cadence. Please note if testing cadence will differ by tier:

50% staff is tested every 2 weeks.

Testing of Students: How school officials will ensure that students who have symptoms of COVID-19 or have been exposed to someone with COVID-19 will be rapidly tested and what instructions they will be given while waiting for test results. Below, please describe any planned periodic asymptomatic student testing cadence.

Planned student testing cadence. Please note if testing cadence will differ by tier.
Identification and Reporting of Cases: At all times, reporting of confirmed positive and suspected cases in students, staff and employees will be consistent with Reporting Requirements.

Communication Plans: How the superintendent will communicate with students, staff, and parents about cases and exposures at the school, consistent with privacy requirements such as FERPA and HIPAA.

Consultation: (For schools not previously open) Please confirm consultation with the following groups

Labor Organization
Name of Organization(s) and Date(s) Consulted:
Name: CSEA
Date: 04/13/2020

Parent and Community Organizations
Name of Organization(s) and Date(s) Consulted:
Name: Individual Outreach
Date: 09/01/2020

If no labor organization represents staff at the school, please describe the process for consultation with school staff:
Staff meetings on August 3rd, 10th, 11th, 12th, 13th and 14th.

For Local Educational Agencies (LEAs or equivalent) in PURPLE:

Local Health Officer Approval: The Local Health Officer, for (state County) . Marin ., County has certified and approved the CRP on this date: 09/04/2020. If more than 7 business days have passed since the submission without input from the LHO, the CRP shall be deemed approved.

Safe Schools for All Hub
COVID-19 School Site-Specific Protection Plan
Guidance & Template (8/14/2020)

Guidance for Developing Your School’s COVID-19 School Site-Specific Protection Plan (SSSPP)

1. Establish a multi-disciplinary Task Force (ie, teachers, custodians, school secretaries, para-educators, parents, students, and administrators) to develop and support this School Site-Specific Protection Plan who will meet regularly to monitor Public Health Information and adjust the plan based on input from all stakeholders as needed.

2. Perform a school site walkthrough with the Task Force of your campus, classrooms, multi-use rooms, and office spaces and use the protocols, guidance and best practices detailed in the Public Health Guided Return to Site-Based Classroom Instruction as a guide for conducting your assessment.

3. Develop and finalize your SSSPP and train staff before site-based classroom instruction begins.

4. Use the template below to create your own SSSPP by filling in the required details, based on your individual school site/school or district office, to mitigate the transmission of COVID-19, under the guidance of the Public Health Officer.

5. Finalize your SSSPP to distribute to staff and families and post on your school website. You may also post a copy at your school or office at a visible location, at or near the main entrance where students, staff and visitors can easily review it without touching the document, or post a Certificate of Completion (included below) with information on how to review the plan in its entirety online.

6. Post signs at each of the primary staff and student entrances to inform all students, staff and visitors that they should:
   ● If you have COVID-19 symptoms, do not enter the facility;
   ● Maintain a minimum six-foot distance from one another;
   ● Sneeze and cough into a cloth or tissue or, if not available, into one’s elbow;
   ● Wear face coverings, as appropriate; and
   ● Do not shake hands or engage in any unnecessary physical contact.

Templates for signs can be downloaded for use from the Marin Recovers website.

Tools for Developing Your School Site-Specific Protection Plan

1. COVID-19 School Site-Specific Protection Plan (SSSPP) Template
The Marin County Office of Education is providing this template that can be used by any school or district in Marin to create their own School Site-Specific Protection Plan (SSSPP). It contains all of the standard content already written for you to re-open your school or school office and prompts you to “fill in the blank” where unique information is required in order to complete your SSSPP. The template has been reviewed and supported by Marin County’s Public Health Officer.
2. School Specific Best Practices
The MCOE Rethinking Schools Task Force is monitoring updated guidance from the Center for Disease Control, the California Department of Public Health, the California Department of Education, and Marin County Public Health to support and promote emerging best practices to share with the school community in Marin. These best practices are based on alignment with local, state and federal guidelines in coordination with the county’s Public Health Officer.

Specific Control Measures and Screenings

Please provide as much detail as possible for how you intend to implement each guideline. If you need additional space, please provide an attachment.

☑ 1. All activities are consistent with and will adjust to changing applicable state and local Public Health Orders. A multi-disciplinary Task Force has been established to develop and support this School Site-Specific Protection Plan, who meet regularly to monitor and adjust the plan based on input from all stakeholders.

At Terra Marin, all activities are consistent with and will adjust to changing applicable state and local Public Health Orders. A multi-disciplinary Task Force has been established to develop and support this School Site-Specific Protection Plan, who meet regularly to monitor and adjust the plan based on input from all stakeholders.

☑ 2. Health and safety practices and protocols are in place, including hand washing, appropriate face coverings, and access to essential protective equipment, and up to date student and staff attendance tracking.

Classroom Health and Safety Kits

Classroom Health and Safety Kits contain Essential Protective Equipment (EPE) needed for a cohort/classroom. Each cohort/classroom will have a supply kit containing a supply of gloves, safety glasses, touchless thermometers, face coverings, hand sanitizer, and cleaning/sanitizing supplies. These kits are designed to support the safety of the cohort and furnish the EPE needed for the cohort’s cleaning schedule (Appendix I) and will be replenished weekly or more often as necessary by the lead teacher. Additionally, a supply of commonly used EPE such as gloves, masks, and hand-sanitizer will be stored and widely accessible to all staff in the school’s main janitorial closet.

☑ 3. Training is provided to all staff and students reinforcing the importance of health and safety practices and protocols.

Staff will be trained on all safety protocols including hallway procedures, physical distancing, handwashing, face covering, bathroom protocols, and sanitization procedures during teacher in-service days (August 10 - 15) before the start of the school year, and regularly revisited and refined (monthly and whenever there are federal, state, or county updates) throughout the school year. Administration staff will spot check cohorts for adherence to the regulations and will also be a part of the bi-weekly classroom observations.

Staff will be trained on all safety protocols including hallway procedures, physical distancing, handwashing, face covering, bathroom protocols, and sanitization procedures during teacher in-service days (August 10 - 15) before the start of the school year, and regularly revisited and refined (monthly and whenever there are federal, state, or county updates) throughout the school year.
4. A primary and secondary point of contact are established, identified, and trained at each school site to direct questions or concerns around practices, protocols, or potential exposure. These points of contact will also serve as a liaison to Public Health and contact information is identified in the School Site-Specific Protection Plan.

The name of this person is: Aidan Gavet, Director of Health and Safety

(Points of Contact listed above).

5. Plans are implemented for intensified cleaning and disinfecting, including training for staff and access to cleaning supplies and essential protective equipment, and regular disinfecting of frequently touched surfaces.

Cleaning and Disinfecting

Terra Schools will meet cleanliness standards as outlined by the CDE and the CDPH prior to reopening and will maintain this high level of cleanliness throughout the school year. In accordance with CDC and CDPR guidance, and in consultation with local public health officials, staff will implement the correct application of disinfectants using personal protective equipment and ventilation recommended for cleaning.

Disinfecting of surfaces between uses may include, but is not limited to: desks, tables, chairs, keyboards, headsets, general classroom supplies, copy machines, door knobs and phones.

School Site janitorial staff will clean the bathrooms and hallways twice daily with a disinfectant solution (bleach and soap and water as suggested by the CDE and CDPH guidelines). Janitorial staff will clean and disinfect classrooms at the end of each school day.
6. Health screening for students and staff are conducted as advised and updated by Public Health. On July 23, 2020 the Centers for Disease Control and Prevention provided updated guidance on screening K-12 students emphasizing that parents and caregivers must monitor their children for signs of infectious illness every day at home, and universal symptom screening for K-12 students is not required.

(MCOE Staff Health Screening)

7. Staff and students who are sick are expected to stay home and an isolation area is identified for students who begin to exhibit symptoms during the school day, until they can be picked up. Describe placement of designated Isolation Area:

A small office behind the front desk will be reserved for students needing isolation.

8. Schools and districts will cooperate with Public Health to support testing strategies to mitigate transmission of COVID-19, including testing for staff at the beginning of the school year, and then no less
than once every two months. This may include testing of students with appropriate parental permissions obtained in advance. (Identify testing vendors, if applicable)

### Testing
All Staff will be tested at the beginning of the school year, and then on an ongoing basis of no less than once every two months. All community members, staff, families, and students, will be required to adhere to the following guidelines as part of their contract:

- Terra Schools community members (staff, families, and students) must shelter-in-place for two-weeks before the start of school
- Terra Schools community members (staff, families, and students) may not travel on an airplane without providing a negative COVID-19 test prior to entering campus
- Terra Schools community members (staff, families, and students) must be sheltering-in-place & not participating in other group childcare or extracurricular activities while attending Terra Schools
- Terra Schools community members (staff, families, and students) are asked not to carpool with others (with the exception of those that they are already in a stable cohort with)

☐ 9. Protocols, actions and template communications are in place for the following COVID-19 related scenarios (link: Marin County Public Health Protocols & Communication Templates for each scenario):
   a. A student or staff member either exhibits COVID-19 symptoms or has a temperature of 100.4 or above.
   - Cohort Open
   - The student or staff member should not enter the building, should be sent home, and self-isolate.
   - The student or staff member should contact their healthcare provider for any further steps and testing if advised.
   - Marin Public Health (415) 473-7191
   b. A family member or someone in close contact with a student or staff member tests positive for COVID-19.
   - Cohort Open
   - The student or staff member is expected to report this to the site administrator immediately, is excluded from the cohort, and they and all household members should quarantine, monitor symptoms, and contact their health providers and/or Public Health for additional steps and to schedule testing.
• The site administrator should gather any additional information regarding details of known contact and forward this information to Public Health.
• Public Health will advise of any additional next steps including support of expedited testing.
• If the student or staff member has siblings, family or household members at other school sites with possible exposure they should be excused from school and Public Health contacted to assess exposure risk and determine disposition (eg. exclude from cohort). Public Health infectious disease exposure notice letter has been requested.
• All families of students and staff members of the cohort and anyone who was possibly exposed should be notified that day that a student or staff member has a household member that has tested positive for COVID-19 by letter.
• Marin Public Health (415) 473-7191
c. A student or staff member tests positive for COVID-19.
  • **Cohort Closed - Cohort to Distance Learning**
  • The cohort will be closed for 14 days from last known exposure.
  • All families of students and staff members of the cohort should be notified with a phone call followed by a letter that a student or staff member in the cohort has tested positive. Students and staff of the cohort should be quarantined for 14 days from the date of last known contact.
  • The entire cohort of staff and students should be tested working directly with their healthcare providers and/or Public Health. Further testing of family members may be advised based on cohort member test results.
  • Marin Public Health (415) 473-7191
d. A student or staff member tests negative for COVID-19 after any of the reasons scenarios a, b or c.
  • **Cohort Open**
  • Student or Staff: May return to cohort 3 days after symptoms resolve
  • Even though the staff member has tested negative, if they had close contact with an individual that has tested positive for COVID-19, they should remain in quarantine for 14 days from last known close contact with the individual.
    • **Doctor’s letter may be required for return to work/school.**

Additional Practices
• If multiple cohorts have cases or more than 5% of the school is COVID positive, the **School Closed - Pivot to Distance Learning**
  • The school will be closed.
  • The site administrator should gather any additional information regarding details of known contact and forward this information to Public Health.
  • Public Health will advise of any additional next steps including support of expedit testing.
  • All families of students and staff members should be notified that day with a
10. Where practicable, physical distancing of six feet is maintained between adults and students; four feet distance is permissible between students within a classroom or instructional area where requirements herein are in practice.

Yes, Terra Schools will practice 6 ft distancing policies while both in the classroom and outdoors as practicable. Parents, students and staff will be trained on these practices and be expected to maintain this policy at all times.

11. For elementary schools, stable classroom cohorts (up to standard class size at each respective grade level) are maintained throughout each school day, and through each quarter or semester, with an assigned primary cohort teacher, and systems are in place to prevent the mixing of classroom cohorts.

Yes, each cohort has a stable teacher and students to prevent the mixing of classroom cohorts. In addition, each will have their own designated outdoor area.

12. For middle and high schools, larger cohorts made up of students from more than one classroom may be arranged as long as accurate attendance data for students and adults is maintained on a daily basis while avoiding school-wide mixing of students and staff. Describe below:

Touchless and accurate attendance data for students and adults is maintained on a daily basis while avoiding school-wide mixing of students and staff. Currently, Terra Schools has one cohort of each middle school grade (5th, 6th, 7th & 8th). Each cohort has a dedicated classroom, outside space, bathroom and entrance in and out of the building.

14. School staff are permitted to visit and instruct more than one classroom cohort, following physical distancing and face covering protocols, and must document/record visits to classrooms that are not identified as their primary classroom cohort.

Each cohort is designated a primary teacher, who remains with a designated cohort during the day.
and maintains a daily record of any visitors. These daily records are reported to the Safety Task Force Director, Aidan Gavet, daily as part of the contact tracing documentation. Aidan maintains a digital log for efficient access should contact tracing be needed.

15. Routes for entry and exit to the campus will be designated for each classroom cohort, using as many entrances/exits as feasible.

Terra Marin On-site Campus has seven cohorts and nine entrances. Each classroom cohort will be designated its own entrance and exit, with staggered timing. Necessary support staff will use a separate entrance.

16. Schedules for arrivals, recess and lunch will be strategically coordinated to prevent mixing of classroom cohorts.

Parents, guardians, transportation companies (bus, taxis, etc.) are provided a schedule for arrivals and pick up that are strategically coordinated to prevent mixing of classroom cohorts. In addition to staggered arrival and pick up, designated cohort drop off and pick ups best accommodate cohort routes for entry and exits mitigate mixing of classroom cohorts.

The small cohort sizes also aid in providing physical distancing. If a student arrives outside of their designated time, they will be instructed to wait in their vehicles until the assigned arrival time and/or until a designated school staff (aka “transportation staff”) can accommodate the late arrival.

P.E., recess, lunch/lunch recess and any additional access to outdoor areas will occur at designated staggered times, and in assigned areas as needed, to prevent mixing of classroom cohorts and to accommodate scheduled cleaning protocols.

17. Congregate movement through hallways will be minimized as much as practicable.

Terra Marin School On-site Program
Each cohort has its own designated restroom, outdoor area, and entrance/exit located closest to their classroom to minimize the movement through the hallways and common spaces. In addition, scheduled transitions, bathroom breaks, hand washing times outside the classroom will be implemented one-student at a time to further support physical distancing. Many classrooms have their own sinks to facilitate minimal movement outside of the classroom for handwashing. The overall school schedule and layout is already set up to restrict and limit mixing and crossing of cohorts.

</table>
22. Meals will be served in classrooms or outside instead of cafeterias or dining rooms with individually plated or bagged meals as much as practicable.

At Terra Marin, meals will be served in classrooms or outside instead of cafeterias or dining rooms with individually plated or bagged meals as much as practicable. Students will bring their own water, snacks and lunch from home each day.

23. Routines and schedules will be developed to enable students and staff to regularly wash their hands at staggered intervals.

Routine hand washing will occur more frequently with scheduled times throughout the day for both staff and students. Students and staff will wash their hands one at a time to promote physical distancing. Students and staff will wash their hands upon entering and exiting the classroom, before and after eating or drinking, as well as during scheduled times throughout the day. Hand washing protocols and best practices reminders (with visuals for all ages), will be posted at all the locations where handwashing will/could take place. Handwashing procedures and best practices will be shared with students, faculty and parents frequently throughout the school year.

24. All staff as well as all students in grades 3 - 12 are required to wear face coverings while in the classroom and on campus unless there is a medical or behavioral contraindication. Students from grades TK - 2 are strongly encouraged to wear face coverings and should be supported and taught how to wear them properly.

At Terra Marin, all staff as well as all students in grades 3 - 12 are required to wear face coverings while in the classroom and on campus unless there is a medical or behavioral contraindication. Students from grades TK-2 are strongly encouraged to wear face coverings and should be supported and taught how to wear them properly.

25. Training will be provided for staff and students on proper use of face coverings which will include instruction to minimize touching of face coverings.

Training
In accordance with the Healthy Schools Act, CDPR guidance, and Cal/OSHA regulations, staff training will be provided as recommended by state and local health standards. These trainings included, but
are not limited to:

- Proper use of protective equipment
  - Teaching staff will instruct students on the proper use of face coverings which will include instruction to minimize touching of face covering, proper placement and removal, cleaning, and how to avoid potential cross contamination
- Keeping hands away from their faces
  - Teaching staff will instruct students on how to avoid touching their faces
- Cough and sneeze etiquette
  - Teaching staff will instruct students on proper cough and sneeze etiquette
- Frequent hand washing and proper technique
  - Teaching staff will instruct students on hand washing technique
- Cleaning and disinfecting
- Confidentiality around health recording and reporting
- Manifestations of COVID-19
- CDC transmission-based precautions

26. Sharing of supplies, manipulatives, toys, sports equipment, and other learning and recreational materials will be limited and each student will have separate individually labeled boxes or cubbies.

Yes, sharing of supplies, manipulatives, toys, sports equipment, and other learning and recreational materials will be limited and each student will have a separate, individually labeled supply to be kept in their backpack or cubby for the students when on campus.

27. Sharing of electronic devices, clothing, books and other games or learning aids will be avoided as much as practicable.

At Terra Marin, sharing of electronic devices, clothing, books and other games or learning aids will be avoided as much as practicable. If sharing is necessary, staff will sanitize between uses.

28. Use of privacy boards or clear screens will be considered as much as practicable.

Yes, the use of privacy boards or clear screens will be considered as much as practicable.

29. Non-essential visitors, including parent volunteers will be limited and essential workers will be required to adhere to all health and safety guidelines.
At Terra Marin, non-essential visitors, including parent volunteers will be limited and essential workers will be required to adhere to all health and safety guidelines.

☑ 30. A School Site-Specific Protection Plan outlining the above measures is completed, posted and shared with all stakeholders and updated as state and local Public Health guidance dictates.

The Terra Schools Site-Specific Protection Plan is shared with all parents/guardians with the published annual school forms, posted with hands-free viewing by the school office, shared to all stakeholders, and published on the agency/school website(s) at terramarin.org.

☑ Breaks and break rooms are managed to allow employees to eat in designated areas while maintaining 6 feet distance.

☑ Where practicable, physical distancing of six feet is maintained between adults and students; four to six feet distance is permissible between students within a classroom or instructional area where requirements herein are in practice.

☑ Desks or individual workstations within office settings are separated by at least six feet. Only those employees who must be on campus will be. Those who can work from home will do so as much as possible.

☑ Meals will be served in classrooms or outside instead of cafeterias or dining rooms with individually plated or bagged meals as much as practicable. Children will be asked to bring their lunch, water and snacks from home.

☑ The use of outdoor space for instructional purposes is maximized, shared, and coordinated to ensure students remain in their cohort and there is no mixing of cohorts during instruction/play.

Training

Staff has been trained on the following topics:

☑ Information from the Centers for Disease Control and Prevention (CDC) on COVID-19, how to prevent it from spreading, and which underlying health conditions may make individuals more susceptible to contracting the virus.

☑ Manufacturer’s directions and Cal/OSHA requirements for safe use of personal hygiene and cleaning products - how to properly clean the classroom and common areas.

☑ Self-screening at home, including temperature

☑ The importance of physical distancing, both at
Compliance and Documentation

- This school site/office is regularly inspected for compliance with this School Site-Specific Protection Plan (SSPP) and any deficiencies are documented and corrected.
- All school sites and office operations will continue to be accessible to students and staff with disabilities complying with the Americans with Disabilities Act. Title III which covers private business entities.
- This school site has created a task force to support SSSPP activities. This group meets regularly.

Classroom/Cohort Protocols

Facial Covering
- Wear appropriate facial covering (if wearing a shield it must also have a wrap or a mask is also

</tr>
</tbody>
</table>
worn underneath the shield; All students and staff are required to wear essential protective equipment, including masks, during the school day (when practicable). The school will keep a stock of and provide masks for those who have forgotten their mask at home. Children are required to wear a mask during the day; however, they will be taking mask breaks during the day to eat, drink, and exercise. When masks are not worn, staff and students will maintain a physical distance of at least 6 feet as practicable.

- Teach washing hands before putting on or taking off masks
- How to properly wear a mask so that it covers both the mouth and the nose
- How to properly store a mask when eating or drinking
- How to properly clean a mask and the frequency of cleaning required

Handwashing
- Wash hands (every time):
  - After arrival and before dismissal
  - Before and after eating or preparing food
  - After blowing one’s nose
  - After coughing or sneezing
  - Before and after using the restroom
  - Regularly throughout the day - set times will be designated as “hand washing” times throughout the day and will not be altered

Restroom Use
- Proper restroom protocol will be taught to all students/staff and all cohorts will have their own single person use dedicated bathroom
  - If a student needs to use the restroom, they should tell a teacher and he/she will help with opening/closing the door of the bathroom, keeping the door open, and reminding the student to wash hands
  - Students should use a paper towel to turn on/off the faucet and to open any doors/handles in the bathroom. The main door of the bathroom is to be kept open at all times. Do not close it. Students should ask a teacher to help with this
  - Always wash hands for 20 seconds after going to the bathroom

Physical Distancing
- Staff and students will maintain a physical distance of at least 6 feet as practicable at all times in or out of the classroom.

Appendix I

CLEANING PROCEDURES

Teachers will be responsible for routine cleaning and sanitizing of classrooms during the school day.
day. This includes:

**Table Washing Procedure**

**2-Step Process**

1. To remove heavy soil, spray the table (or highchair tray) with a soap-water solution and wipe dry with a disposable paper towel.

2. To sanitize the eating surface, spray the ENTIRE table/tray with the bleach-water solution and wait at least two minutes before wiping with a disposable towel or air dry, in order to allow the solution to kill germs. The surface cannot be sprayed and immediately wiped. See below for additional guidance.

**NOTE: The entire table surface must be covered with sanitizer (e.g., glistening wet).**

**Additional Precautions**

- Sponges should not be used for sanitizing tables because they soak bacteria away from the surface of the sponge, which then cannot be easily reached in the interior of the sponge by the sanitizing agent.

- If wet cloths are used, a separate cloth is required for each table/tray, and cloths cannot be returned to soak in a bleach-water solution. Each cloth must be laundered before a second use.

- Food should not be put directly on the table or highchair tray because eating surfaces are more likely to be contaminated than disposable plates or washed and sanitized dishes.

- In the case children of different cohorts rotate through a snack eating area, each place must be cleaned and sanitized between use by different cohorts. Sanitizing solutions should not be sprayed while children are seated at the table.

- See also the handout “Selecting an Appropriate Sanitizer or Disinfectant” (Appendix J of Caring for Our Children). Download at [http://cfoc.nrckids.org/WebFiles/AppedicesUpload/AppendixJ.pdf](http://cfoc.nrckids.org/WebFiles/AppedicesUpload/AppendixJ.pdf).

- Clean high-contact areas and surfaces frequently, using a 10% bleach solution or EPA-approved disinfectant, including counters, toys, telephones, and doorknobs. Eating and food preparation areas must be cleaned before and after use.

**Appendix II**

**HEALTH SCREENING**

Terra Schools students and staff are tested daily for a temperature (above 100.4) with a touchless thermometer. They are also asked daily health screening questions. A touchless attendance is taken through our CurraCubby attendance software.

**Student Health Questions**

Temperature Reading:

1. Your Name
2. Student Name

3. Do you or your child live with anyone or have you or your child had close contact with* anyone with a prolonged cough, fever, flu-like symptoms, or been personally diagnosed with COVID-19 within the last 14 days? For children and adults, the fever threshold is 100.4 degrees or above using a forehead thermometer.

4. Do you or your child live with anyone, have had close contact* with, or do you personally or does your child have a fever, cough, and/or shortness of breath? For children and adults, fever threshold is 100.4 degrees or above using a forehead thermometer.

5. Do you or your child live with anyone, have had close contact* with, or do you personally or your child have any other signs of communicable illness such as a cold, flu, rash, or inflammation?

6. Do you or your child live with anyone, have had close contact* with, or are you personally or your child experiencing a loss of smell or taste?

7. Do you or your child live with anyone, have had close contact* or have you personally or your child experienced diarrhea or vomiting within the past 24 hours?

3. Do you live with anyone, have had close contact* with, or do you personally have a fever, cough, and/or shortness of breath? For children and adults, fever is 100.4 degrees or above using a forehead thermometer.

4. Do you live with anyone, have had close contact* with, or do you personally have any other signs of communicable illness such as a cold, flu, rash, or inflammation?

5. Do you live with anyone, have had close contact* with, or are you personally experiencing a loss of smell or taste?

6. Do you live with anyone, have had close contact* with or have you personally experienced diarrhea or vomiting within the past 24 hours?

*Individual who has had close contact < 6 feet for ≥15 minutes
Appendix III

DROP OFF/PICK UP PROCEDURES

Terra Schools On-Campus Program

Drop Off/Arrival

- Drop off for Preschool, Lower School (K-4) and for Upper School (5-8) will be staggered to facilitate social distancing upon arrival.
- Parents/guardians are asked to check their family’s temperature, monitor their family’s health carefully and complete a health screening prior to coming to school each day.
- Parents/guardians are asked *not* to linger at drop off location at school or enter the building at any time.
- Parents/guardians are asked to drop their child at their assigned location/door.
- Parents/guardians must wait for their child’s turn to be checked in by waiting on the marks on the ground that have been placed 6 ft apart. Parents/guardians are asked not to linger at the campus drop off or enter the building at any time.
- Teacher or member of the administration will take contactless temperature of the student and ask the health questions. (If the answer is “yes” to any of the health questions or the child’s temperature is above 100.4, the student will be asked to go home).
- Parents will receive a thumbs up if all is ok and the parents/guardian is free to go.
- The child (depending upon their age) will either be escorted to their classroom by a member of school staff or they will follow the designated lines on the hallway floors to limit touching of walls or one another while in this common space.
- Upon entering the classroom all students will be asked to wash their hands with the handwashing guidelines then find their place in the classroom.
- Students are to keep their backpacks with them and are asked not to share anything with their fellow students - this includes school supplies, food, toys, supplies, water, sunscreen, etc.
- Students are asked to wear a mask during the day; however, they will be taking mask breaks during the day to eat, drink, and exercise. When masks are not worn, a physical distancing of at least 6 feet will be maintained whenever practicable.

Pick Up/Dismissal

- Parents/guardians are asked to pick up at the same location where their child was dropped in the morning at 4pm.
- Teachers will have taken the child’s temperature before the end of the day and therefore will check the students out quickly when parents/guardians arrive - including a contactless temperature check. Children will be asked to follow their designated line to the door to meet up with their parent or guardian or be escorted to the door (depending upon the age of the child)
- Parents/guardians are asked to wait for their child either in their car or stand in line on the marks on the sidewalk/ground until their child has been checked out (contactless temperature taken)
- Parents/guardians will provide the name of the student, show ID and the student will be collected and either sent to the parent’s/guardian’s car or handed over to the parent or guardian at the entrance/exit of the building.
- Only those on the authorized adults list for pick up will be allowed to pick up the student; ID required for pick up.
Types of protective equipment provided to employees at this school/office location include:
Sanitization materials including bleach/water solutions, hand sanitizer, soap and water in all bathrooms, plastic gloves.

Additional control measures you are implementing at this school/office include:
Single use cohort dedicated bathrooms, staggered drop off and pick up, separate entrances/exits for cohorts, sanitization stations throughout school, sanitization materials at all common spaces and equipment.

### Cleaning and Disinfecting Protocols

<table>

Description of specific operational procedures being implemented to ensure there is adequate time for cleaning/disinfecting:

Additional Measures
● Terra Marin Schools will implement robust and frequent outdoor classroom instruction
● Inside instruction will occur with open doors and windows to maximize airflow
● Blended virtual and in-person instruction to be implemented to limit the number of students and staff in building.

Physical Distancing Guidelines

| ☑ Staff breaks and break rooms are managed to allow employees to eat on premises in designated areas where they can remain 6 feet apart. | ☑ Tape or other markings have been placed at least six feet apart on sidewalks or other walkways near public entrances with signs directing students to use the markings to maintain distance. |
| ☑ Where practicable, physical distancing of five to six feet is maintained to the greatest extent possible and distancing may be permissible down to four feet within a classroom or instructional area where requirements herein are in practice; | ☑ All desks or individual workstations within office settings are separated by at least six feet or employees otherwise maintain six feet if workspace is limited. |
| ☑ Meals will be served in classrooms or outside instead of cafeterias or dining rooms with individually plated or bagged meals as much as practicable; | ☑ The use of outdoor space for instructional purposes is maximized, shared, and coordinated to ensure students remain in their cohort; |

Notification of COVID-19 Positive Case at School or Office Site:

| ☑ County of Marin Public Health is notified of all positive COVID-19 cases. | ☑ Employers and employees are aware that they can call Marin Public Health if a suspected exposure has occurred at 415-473-7191. |
| ☑ If a student or staff member is diagnosed with COVID-19, Marin County Public Health will provide assistance in the assessment of potential worksite exposures, and any recommended testing, quarantine, or isolation instructions. | ☑ Protocols, actions and template communications are in place for COVID-19 related scenarios (link: Marin County Public Health Protocols & Communication Templates). |

Training
Staff have been trained on the following topics

| ☑ Information from the Centers for Disease Control and Prevention (CDC) on COVID-19, how to prevent it from spreading, and which underlying health conditions may make individuals more susceptible to contracting the virus. | ☑ Manufacturer’s directions and Cal/OSHA requirements for safe use of personal hygiene and cleaning products. |
| ☑ Self-screening at home, including temperature and/or symptom checks using CDC guidelines. | ☑ The importance of physical distancing, both at work and off work time (see Physical Distancing section above). |
| ☑ The importance of not coming to work if employees have a frequent cough, fever, difficulty breathing, chills, muscle pain, headache, sore throat, recent loss of taste or smell, or if they or someone they live with have been diagnosed with COVID-19. | ☑ Proper use of face coverings, including: using masks that cover the nose and mouth, shields that wrap around or that are worn accompanied by a mask, cleaning of masks, proper placement of masks when eating and drinking. |
| ☑ The importance of seeking medical attention if an employees’ symptoms become severe, including persistent pain or pressure in the chest, confusion, or bluish lips or face. Updates and further details are available on CDC’s webpage. | ☑ Face coverings do not protect the wearer and are not personal protective equipment (PPE). |
The vulnerability of older adults and people with chronic medical conditions, and the need to practice particular caution to protect these groups.

Face coverings can help protect people near the wearer, but do not replace the need for physical distancing and frequent handwashing.

The importance of frequent handwashing with soap and water, including scrubbing with soap for 20 seconds (or using hand sanitizer with at least 60% ethanol or 70% isopropanol) when employees cannot get to a sink or hand washing station, per CDC guidelines.

The importance of washing and/or sanitizing hands before and after using or adjusting face coverings.

Face coverings to be washed after each shift.

Avoid touching eyes, nose, and mouth.

Compliance and Documentation

This school site / office is regularly inspected for compliance with this School Site-Specific Protection Plan (SSPP) and any deficiencies are documented and corrected.

All school sites and office operations will continue to be accessible to students and staff with disabilities, complying with the Americans with Disabilities Act. Title III which covers private business entities.

This school site has created a Task Force to support SSPPP activities. This group meets regularly.

- Marin County Public Health and Human Services
- California Department of Public Health COVID-19 Industry Guidance: Schools and School Based Programs
- Center for Disease Control - Schools Decision Tree
- California Department of Education - Stronger Together: A Guidebook for the Safe Reopening of California’s Public Schools
**Attach any supporting documents or additional information for each Guideline to the back of the SSSPP.**

School Site-Specific Protection Plan

Certificate of Completion
has completed the School Site-Specific Protection Plan with current information related to COVID-19 Protocols and Procedures. The full SSSPP is available for viewing or download here: [www.terramarin.org](http://www.terramarin.org) inside the safety tab on the top navigation bar.

This certificate should be displayed in the site's main office and the full SSSPP should be available online at the above web address.

Section 4 - Consultation of School Community and Staff

In April 2020, We developed Think Tanks of community leaders (parents, physicians, staff, and board members) to design a plan for reopening safely. At the same time, we developed faculty and staff safety committees to research and plan for our reopening.

To make sure we captured the entire community’s thoughts and interests, we sent a schoolwide survey (July 31, 2020) and held town hall meetings where we could address the families of Terra Marin Students on August 6, 2020. Individual cohort meetings continued through the beginning of the school year, as did many meetings with individual families.

Our staff was consulted and reviewed our plans on August 3, August 10, August 11, August 12, August 13, August 14th. Staff updates and further consultation occur during weekly staff meetings.
